

CARROLL COUNTY PUBLIC SCHOOLS

ENROLLMENT PROJECTIONS

2012-'13 TO 2021-'22

Prepared by Facilities Department
December 5, 2011

2012 – 13 TO 2021 – 22 Enrollment Projections Packet

- Page 3 **Birth to Kindergarten Ratios**
Historical and projected kindergarten enrollments are listed.
- Page 4 **Comparison Chart – Enrollment/Projections 2011-12**
Chart compares September 30, 2011 student enrollment with previous year’s Maryland Department of Planning and Carroll County Public Schools projections.
- Page 5 **Historical Enrollments**
The first chart shows historical enrollments by grade. The second chart identifies grade succession ratios, the percentage of students leaving one grade to enter the next grade.
- Page 6 **Projection Summary, 2012– 13 to 2021-22**
Identifies current enrollment as of September 30, 2011, and projected enrollment by school level from 2012-13 to 2021-22.
- Page 7-14 **Elementary Projections**
Historical enrollment, designated by “A” and projected enrollments by grade are shown for each elementary school. The percentage figures between the grade levels represent the actual and projected “survival rate” from one grade to the next higher grade. State rated building capacity as well as the number of relocatable classrooms is identified for each school. F.T.E. (Full time equivalency) is calculated as follows:
Students grades K-12 = 1.0 F.T.E.
Pre-K students = 0.5 F.T.E.
- Pages 15-21 **Secondary Projections**
Historical enrollment, designated by “A” and projected enrollments by grade are shown for each middle and high school. The percentage figures between the grade levels represent the actual and projected “survival rate” from one grade to the next higher grade. The percentage of elementary students “feeding” into each middle school and percentage of middle students “feeding” into each high school are identified. These percentages are used to project the number of future 6th graders entering middle school and the number of future 9th graders entering a high school.

2012 – 13 TO 2021 – 22
Enrollment Projections Packet
(continued)

- Page 22-28 **Utilization Percentages – Elementary Schools**
State rated school capacities and enrollments are compared to determine percentages of utilization for current and projected years. Elementary schools are listed alphabetically and grouped by area. The additional capacity based on proposed classroom construction projects at the elementary level are included beginning in the year the projects are completed and ready for occupancy.
- Page 29-35 **Utilization Percentages – Middle schools**
State rated capacities, functional capacities and enrollments are compared to determine percentages of utilization for current and projected years. Middle schools are listed alphabetically and grouped by area.
- Pages 36-38 **Utilization Percentages – High Schools**
State rated school capacities and enrollments are compared to determine percentages of utilization for current and projected years. High schools are listed alphabetically and grouped by area.
- Pages 39-41 **Enrollment Report Period ending 9/30/11**
2012-13 to 2021-22 enrollment projections were created using the student enrollment information contained in this spreadsheet.
- Pages 42 **Feeder Patterns, Elementary to Middle and Middle to High**
The percentage of elementary school’s 5th grade “feeding” to a middle school and the percentage of each middle school’s 8th grade “feeding” to a high school.

**Carroll County Public Schools, October, 2011
